RIAZ ULLAH

Civil Engineer

riazullah657@gmail.com | +92 336 534 6948 | Bannu, KPK, Pakistan

PROFESSIONAL SUMMARY

Civil Engineering graduate with 5+ months of hands-on project experience in construction supervision, quantity surveying, and project coordination. Proven ability to interpret technical drawings, manage materials, and ensure quality compliance across residential and commercial projects. Skilled in project management software (Primavera P6, AutoCAD) and proficient in BOQ preparation, cost estimation, and site safety protocols. Strong collaborator with excellent problem-solving skills and commitment to delivering high-quality infrastructure projects on time.

PROFESSIONAL EXPERIENCE

Site Engineer **July 2024 – September 2024**

Hassan Taj & Sons Govt. Contractor, Abbottabad, Pakistan

Project: Government Girls Degree College at Havellian District Abbottabad

- Supervised structural construction activities including steel reinforcement placement, formwork installation, and concrete pouring, ensuring adherence to technical specifications and safety standards
- Conducted daily quality inspections comparing on-site execution with structural drawings, identifying deviations and implementing corrective measures
- Managed inventory and logistics for 500+ tons of construction materials, reducing waste by 15%
- Prepared daily progress reports and photographic records for stakeholder communication and compliance
- Led safety toolbox talks with 20+ workers, contributing to zero lost-time incidents

Trainee Civil Engineer **July 2023 – September 2023**

M/S Taj Ali Khan Construction CO. PVT. LTD, Bannu, Pakistan

Project: Provision of Access Road & Strengthening of UST Bannu

- Supported planning and scheduling using MS Excel and Primavera P6 across 15+ activities
- Prepared BOQs and material estimates with 98% accuracy
- Verified Bar Bending Schedules (BBS) against site execution for 50+ tons of steel
- Conducted inspections for alignment, verticality, and finish quality
- Compiled progress data for internal reporting and decision-making
